salah.software
Dear Hiring Manager,

When I discovered the JavaScript job opportunity with salah.software , I was excited by the opportunity . As a student of Computer Science at Shahjalal University of Science and Technology, Sylhet, I enjoy developing and improving testing technologies. My Problem Solving skills , coursework ,previous Job experience and campus involvement have prepared me well for this position.

Problem solving :I started my problem solving in c and continued this journey two years (2015-2017).I had solved more than 250+ problem in different online judge that time.

Coursework: I started my journey with web in 2017. Later, I did some web-based project during my course work using Java, JavaScript,Laravel, Node.js and Python for my academic purpose, as well as my own personal interest.

Campus involvement:As a member of CSE-SUST, I attend Tech Fest and conferences to expand my industry knowledge and network with full-time professionals.

Job experience: I began my carrier as a JavaScript developer with Everexpert in June 2019. My frontend stack was Vue.js,React.js and backend stack was Sails.js. I used mongoDb as a database as well.

Current Situation: My Mother is diagnosed with dilated cardiomyopathy in December 2019. So I took a break from my career and started to stay home to support my mother. Now I'm planning to start my carrier again and look for exciting opportunities .

I have experience with Vue.js,React.js ,Express.js,Mongodb and SQL. This knowledge will be an asset to this position. I am passionate about Javascript based developing and excited to learn and adapt new Technology.I would be thrilled to learn more alongside your cross-functional team of engineers and developers. My enclosed resume expands on my coursework . Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,
Md Shahnur
